

Job Title: Leicester British Heart Foundation Centre of Research Excellence Research Associate in Cardiovascular Interventions Grade: 7 Salary: £39,355 to £45,413 per annum Department: Cardiovascular Sciences Hours/Contract: Full-time, fixed term contract for 24 months Job Family: Teaching and Research Reference: 11582

## **Role Purpose**

The Leicester British Heart Foundation Centre of Research Excellence is seeking to appoint a research associate who wishes **to develop a research programme in cardiovascular interventions** with the support of internationally renowned investigators.

This opportunity will provide protected research time and funding. Strong supervision and mentorship will be provided by the Centre investigators. Core members of the Centre's Intervention theme cover the breadth of Cardiovascular disease/specialties including cardiology, cardiac and vascular surgery, stroke and diabetes. Core members include Professors Gerry McCann (lead), Andre Ng, Gavin Murphy, Matt Bown, Dave Adlam, Thanos Saratzis, Tom Robinson, Melanie Davies, Tom Yates and Drs Anvesha Singh (deputy lead), Jatinder Minhas.

There are state-of-the art clinical research and molecular biology facilities available in the BHF Cardiovascular Research Centre at Glenfield Hospital, Leicester where the post-holder will be located and the pre-clinical facility on the main campus. The Discovery theme members are part of a wider internationally-recognised community of researchers in Leicester undertaking both fundamental and clinical cardiovascular-related interventional research. The diverse interdisciplinary nature of the Centre's researchers and the wider University will provide broad senior and peer support. Prospective candidates are advised to contact the theme leads, Professor Gerry McCann (gpm12@le.ac.uk) and Dr Anvesha Singh (as707@le.ac.uk) to discuss the scope and remit of the post.

The Centre's Intervention theme focuses on six key disease areas: Atrial fibrillation, Aortic stenosis, Obesity/Heart failure multimorbidty, Cardiac surgery; peripheral arterial disease and stroke (complementing our NIHR Biomedical Research Centre). Candidates will be expected to have an established track record of interventions, at any phase of the translational spectrum, in one of these areas.

The post-holder will be a member of the BHF Centre of Research Excellence and be expected to fully contribute to that community. The post-holder will also be expected to draw on academic experience to underpin and carry out activities across a range of areas of academic and university life, aligned with <u>the University's strategic themes</u> of 'World Changing Research' and 'Our Citizens,' together with the University values.

Our approach to the academic career recognises its plurality and encourages a balance between breadth and specialisation. This is underpinned by the academic career map, which articulates the expectations of academic staff at each stage of their academic career, and clearly establishes what you can do in order to progress your academic career at Leicester.

Main Duties and Responsibilities

# Research

- To contribute to the overall research programme using innovative research models, novel approaches and techniques.
- To lead in the collection, evaluation and interpretation of the research data in experimental design and performance, and work autonomously to attain project milestones.
- To actively seek opportunities to carry out multi-disciplinary research with other research groups at the University or stakeholders external to the University, with the approval of the Principal Investigator (PI).
- To undertake a specific role in a research project or projects, taking responsibility for some element(s) of the planned research
- To contribute to the development of the choice of techniques, critiques, approaches, models and methods
- Develop research and enterprise leadership skills, contributing to promoting and embedding an inclusive and respectful university research culture
- In agreement with the line manager, liaise with project collaborators to progress the research
- To contribute to research outputs and lead in writing up research findings for dissemination amongst the research team and broader international community, and represent research group by disseminating results/findings at national and international conferences and broader community
- To develop and carry out a plan to extend an area of personal research, or contribute as a team member to the development of a broader programme, this may include contributing to the writing of research bids/grants.
- With the support of colleagues, identify opportunities to apply for fellowships and/or further project grants
- Contribute to high quality PGR/PhD/MD supervision and provide guidance to other staff and students (involved in the research programme).

## **Professional Development**

• Duties and opportunities to engage in work that support your own professional development.

## Impact and Knowledge Exchange

- Network and contribute to the maintaining and furthering of the wider research programme and research area
- To contribute to industry collaborations
- To consult effectively on own specialism directly with people external to the University
- To engage positively and pro-actively in research impact

## Leadership and Citizenship

- Guidance to other team members; providing mentoring and coaching to Early Career Researchers and research students
- Pro-actively build networks and collaborations.

#### Teaching

Whilst primarily a research role, the post holder may on occasion be asked to lead or assist with the development and/or delivery of lectures, seminars, tutorials and other classes or public presentations within their areas of expertise, in support of teaching or other education activities delivered by the cardiovascular sciences (e.g.MRes) as reasonably required by lead researchers or education leads.

When doing the above, the post holder will be expected to support and comply with the University teaching quality assurance standards and procedures including the provision of such information as may be required by the University.

## Internal and External Relationships

Develop mutually beneficial, effective relationships across the Centre and wider University, and with local partners, that support and deliver the University strategy.

Represent the University regionally and nationally.

Build relationships with external bodies to develop the Centre's impact agenda.

Coordination with central University offices.

Regular meetings with members of the programme research group

Meeting members of the department for critical discussion of the research and exchange of new ideas and approaches that might benefit the research

## Planning and Organising

You will be required to effectively manage your time to plan your research activity and to deliver on the priorities of the project:

- Along with senior colleagues, shape the strategic direction in the research area, developing clear long-term (many months/years) plans for sustaining and enhancing the research programme.
- Prioritise tasks within agreed work schedules;
- Plan for specific aspects of research incorporating issues such as deadlines, project milestones and overall research aims;

Adapt daily and weekly plans to accommodate new developments and be flexible to the changing priorities of the research project;

Qualifications, Knowledge and Experience

## Essential

- PhD or equivalent in appropriate discipline or the equivalent professional qualification and experience \*
- Evidence of a contribution to peer-reviewed journal papers or equivalent e.g., technical report/writing a piece of software \*
- Evidence of proven analytical problem-solving capability \*
- Expertise in relevant approaches/models and analytical techniques and ability to develop new ones where required.
- Expertise that complements or enhances existing strengths within the Department/School\*

## Desirable

- Clear forward plans for sustaining and enhancing the research programme
- Involvement in relevant research and professional networks and organisations on a national level
- Successful completion of CPD

## Skills, Abilities and Competencies

#### Essential

- Willingness and ability to work with internal and external stakeholders\*
- Evidence of continued development of subject expertise\*
- Excellent communication skills written and verbal evidenced by the ability to communicate complex information \*
- Evidence of working effectively as part of a team and the ability to work independently \*
- Working towards independence and ability to be involved in collaborative research
- Evidence and commitment to Continuous Professional Development (CPD) for yourself, and encourage commitment to learn and develop in others
- Collegiate member of a research team
- Ability to deliver classes using a comprehensive range of delivery methods, including lectures, seminars and tutoring
- A commitment to the delivery of a high-quality service to students

## Desirable

• Budget management skills

## \*Criteria to be used in shortlisting candidates for interview

**Reason for Fixed Term Contract** 

The reason for the fixed term contract is stated in section 1.9 in the summary of contractual terms in your contract of employment.

**Criminal Declaration** 

If you become an employee, you must inform your manager immediately, in writing, if you are the subject of any current or future police investigations/legal proceedings, which could result in a criminal offence, conviction, caution, bind-over or charges, or warnings.

**Supporting University Activities** 

As a University of Leicester citizen, you are expected to support key university activities such as clearing, graduation ceremonies, student registration and recruitment open days. We expect all staff as citizens to work flexibly across the University if required.

**University Values** 

**Inclusive** - We are diverse in our makeup and united in ambition. Our diversity is our strength and makes our community stronger.

**Inspiring** - We are passionate about inspiring individuals to succeed and realise their ambitions. We challenge our community to think differently, to get involved, and to constantly embrace new ideas.

**Impactful** - As Citizens of Change we will generate new ideas which deliver impact and empower our community

**Equity and Diversity** 

We believe that equity, diversity and inclusion is integral to a successful modern workplace. By developing and implementing policies and systems that challenge stereotypes across all aspects of our work, we have a culture that recognises and values the diverse contributions of our staff which benefits everyone. Our strong values of inclusivity and equity support our efforts to attract a diverse range of high quality staff and students, and identify our University as a progressive and innovative workplace that mainstreams equity, diversity and inclusion.
