Job Summary

Job Title: Reactive Maintenance Supervisor
Grade: 6
Salary: £27,830 - £35,211 per annum
Department: Reactive Maintenance
Hours/Contract: Indeterminate/Open Ended
Job Reference: 264

Role Purpose – To deliver a Reactive Maintenance Service to the wider university body. To manage, support and motivate the team to ensure that the best possible performer is delivered. Remove barriers to endeavor to fix faults first time.

Principal Responsibilities

- You will manage a team allocating and prioritising work to deliver a range of services. You will motivate and support the team to meet our Service Level Agreement (SLA) for our objective of providing a Reactive Maintenance service to the university. Utilising software systems to help achieve this goal and bringing together in-house expertise from across the university to maintain buildings and services.
- You will provide expert support to team members. Using discretion, reviewing, planning and organising you will deploy assigned resources based on a cost/benefit analysis to ensure each Reactive Maintenance task is successfully completed end to end with a quality first time fix and ensuring cost efficiency and effectiveness.
- You will monitor individual performance and carry out appraisals to enable staff to contribute to the achievement of departmental goals.
- Support and work alongside other supervisors to ensure service delivery and SLAs are achieved.
- You will ensure regulatory compliance and legislation are achieved including financial, Health & Safety (H&S) and data protection. Ensure work areas are clean, tidy and safe by carrying out regular inspections. You will be accountable for ensuring the correct permits are issued to staff when requested.
- You will be responsible for ensuring the craftspeople work safely and complete quality work. Following the correct Repair and Maintenance and COSHH assessments and that their tools, equipment and materials are suitable for the task.
- To assist with Management across other disciplines when required.
- Managing the out of hours standby rota and being part of a Management call-out rota, ensuring appropriate level of staffing at all times. To assist craftspeople and contractors in emergency call situations which may require attending the university premises out of hours.
